A Frigid February Leads to March Events!

After a fairly mild January, February has made sure we haven't forgotten that Mother Nature is in charge!

She may have the first word but we work really hard to have the last. Our City crews working hard to clear and salt streets. Marseilles Police Department working with local churches, clubs, city hall, and others to make sure warming centers are available and ready. Keeping the community safe in every way is always the priority. The cooperation of our residents with regard to snow route restrictions along with checking on friends and neighbors has made our job much easier. Thank you!

With the arrival of March, we have longer days and the return of St. Patrick's Day celebrations to look forward to. Spring and summer are expected to bring more events along with the start of several City projects. As we move through 2021 together, we remain positive and hopeful that the year will continue in a healthy direction!
